The full four-day course includes an in-depth discussion of the roles and responsibilities of the local Floodplain Manager, the NFIP floodplain rules and regulations, the procedures for applying for a FEMA Letter of Map Change and the floodplain management implications, and preparing for post-disaster responsibilities.

G194.1: This module reviews the major roles of the floodplain manager who serves as a coordinator, regulator, educator, and planner. Participants learn about the organizations and individuals that need to be coordinated with, recordkeeping practice, regulatory responsibilities, tools for handling violations, and methods for providing information on insurance implications and mitigation planning.

Recommended Prerequisites:
This course is for community officials with a Certified Floodplain Manager (CFM) designation or 2 years of full-time floodplain management experience as a community official. Participants should have completed the course *Managing Floodplain Development through the NFIP*.
