The full four-day course includes an in-depth discussion of the roles and responsibilities of the local Floodplain Manager, the NFIP floodplain rules and regulations, the procedures for applying for a FEMA Letter of Map Change and the floodplain management implications, and preparing for post-disaster responsibilities.

G194.2: The scope of this module includes floodway and encroachment requirements, new residential building requirements, development in approximate A-zone areas, accessory and agricultural buildings, anchoring fuel storage tanks, regulating recreational vehicles, environmental/historic preservation regulations, and typical compliance problems.

Recommended Prerequisites:

This course is for community officials with a Certified Floodplain Manager (CFM) designation or 2 years of full-time floodplain management experience as a community official. Participants should have completed the course *Managing Floodplain Development through the NFIP*.
